MAJOR FUNDING PROVIDED BY:

Effigy Mounds National Monument, located along the Mississippi River in extreme northeast Iowa, was established by the Presidential Proclamation of Harry Truman on October 25, 1949. The monument preserves over 200 prehistoric burial and ceremonial mounds built by Woodland Indians between 2500 and 750 years ago. Thirty-one mounds are animal shaped "effigies".

Hiking relatively steep trails provides access to numerous Indian mound groups, scenic Mississippi River overlooks and a wide variety of flora and fauna - including native and restored prairie. Several walking trails and one automobile driving opportunity exist for mobility impaired visitors to access Indian mound, scenic and natural history resources.
